SUMMARY

A detail-oriented software engineer and web developer with a solid background in frontend development, design, and web development. Experienced in building scalable web applications, crafting intuitive user interfaces, and implementing modern technologies. Passionate about delivering quality code, responsive design, and exceptional user experiences. Seeking a position to leverage my skills in a dynamic development team.

EDUCATION

Centennial College
Diploma in Software Engineering Technology
Graduation Year: April 2023

TECHNICAL SKILLS

Languages: JavaScript, HTML5, Python, Java, SQL
Databases: MySQL, MongoDB, Firebase
Methodologies: Agile, Scrum

WORK EXPERIENCE

Web Developer , Freelance – Remote

September 2021 – Present

- Designed and developed multiple client websites, improving their UI/UX and ensuring responsiveness across devices.
- Worked with technologies like JavaScript, HTML, CSS, and WordPress for website creation and management.
- Integrated third-party APIs and tools for enhanced functionality.

Software Engineering Intern , Tech Innovators Inc. – Toronto, ON

January 2021 – April 2021

- Assisted in the development of backend services using Node.js and Express.
- Created and maintained unit tests, achieving 90% code coverage.
- Improved database queries, resulting in a 25% performance boost.

PROJECTS

Project 1: E-Commerce Website

- Developed a full-stack e-commerce platform using React for the frontend and Node.js/Express for the backend.
- Integrated payment gateways and user authentication.
- Deployed on AWS and used MongoDB for data storage.

Project 2: Mobile Fitness App

- Designed and built a mobile fitness tracking app using React Native.
- Implemented user profiles, workout tracking, and progress visualization using Firebase.
- Integrated push notifications and real-time data syncing for enhanced user engagement.

CERTIFICATIONS

- Certified JavaScript Developer – April 2023
- React Developer Nanodegree – February 2023
- AWS Cloud Practitioner – January 2023
